Working Together For Our Children

new children's hospital

## 3 Month Look Ahead

Dear Resident

Welcome to Resident Connect '3 month look ahead' January – March 18.

The National Paediatric Hospital Development Board & BAM would like to wish you a Happy New Year. Construction works are progressing well, the 12-acre site has now been cleared and main construction works such as bulk excavation and piling are continuing. Overleaf please find a 3-month look ahead roadmap of the works planned onsite. Should you have any enquiries in relation to the construction of the new children's hospital please do not hesitate to contact the **Residents Helpline on 01 531 1110 / [info@bamcontractors.ie](mailto:info@bamcontractors.ie)**

The establishment of the new children's hospital provides a unique opportunity to introduce a new integrated clinical network of paediatric services in Ireland. More than a hospital, the new children's hospital facilities on a shared campus with St. James's will deliver on the huge advances that are possible in children's healthcare and will be a research intensive academic healthcare institution. The new children's hospital will be complete in 2022. Also under construction are two new Paediatric Outpatients and Urgent care centres, one at Connolly Hospital, on the north side of the city, to open in 2019, and one at Tallaght Hospital on the south side of the city, to open in 2020.

The National Paediatric Hospital Development Board would like to take this opportunity to thank residents for their continued support of this development.
